Hoyt Miller, Esq.,

Dear Mr. Miller:

In summing up the accessions for the year, I cam across this item, which, although I am briefly mentioning it in my report, I think should be brought out as well in the report of the Ancient Coin Committee. During the year, Dr. C. W. Blegen presented to us 406 Athenian copper coins picked up in his travels in Greece. An examination of this lot revealed that they came from two or three different hoards. As yet we have not been able to study this lot carefully, but it will undoubtedly prove of interest.

Very truly yours,

HOYT MILLER

Dear Sir:

Letter received and contents noted — especially the check. Thanks for returning it.

Sincerely
Hoyt Miller
